TO: BOARD OF PUBLIC WORKS AND SAFETY
FROM: AARON HEAD, COMMUNITY ENGAGEMENT MANAGER
SUBJECT: *) + C<F -GH5B 5J 9BI 9- RESIDENTIAL FAÇADE GRANT
DATE: MAY 03, 2024

Attached is the Residential Façade Improvement Grant Application submitted by >Yffm UbX'>i `]U'5bXYfgcb for the property at *) + 7\`f]gh]Ub'5j Ybi Y.

The total façade project cost is estimated at \$, ž \$%, - with a grant of \$*ž +*"(& This home is in the D'i a `DfU]f]Y' <]ghcf]WDistrict which allows for a +)% grant match up to \$+ž 00. This ` [fUbi]g' žcf' fYd' UWa YbhcZU`'k]bXck g'cb h\Y`ca Y.

Pending your approval, the property owners will be contacted and work can begin. All of the façade improvements must be started within 60 days and be completed within 12 months of approval.

After completion all façade improvements must be inspected by the Program Administrator and certified building inspectors to verify work has been completed according to the Façade Improvement Agreement. "After" photos and paid invoices itemizing all eligible costs will be submitted to the Mayor's Office for verification. After all work has been completed and verified, funds will be disbursed.

If you have any questions prior to the meeting on May 14th, please feel free to contact me at 317-776-6324 or at ahead@noblesville.in.us.

657 Christian Ave

Noblesville, IN 46060

Our property is currently in good condition. We have no issues with property except for needing new windows, siding and a new back deck. Our plans are to do windows and deck this year and siding next year. We have had total rewiring and plumbing. The inside has been totally redone. Roof is 10 years old and was taken down to trusses and replaced. HVAC system is 10 years old. Foundation was repaired about 25. Years ago.

Windows were replaced in 1983. Many of them have moisture between the panes and are just not working properly anymore. We are going to replace all of them. Currently we cannot see any wood rot or other problems. If we find anything that needs repaired in the process of replacing the windows we will take care of it. We are using white custom vinyl double hung Pella windows. Trim coil around window will be white.

TO: BOARD OF PUBLIC WORKS AND SAFETY
FROM: AARON HEAD, COMMUNITY ENGAGEMENT MANAGER
SUBJECT: 608 CHESTNUT STREET - RESIDENTIAL FAÇADE GRANT
DATE: MAY 03, 2024

Attached is the Residential Façade Improvement Grant Application submitted by Charles and Christine Boerner for the property at 608 Chestnut Street.

The total façade project cost is estimated at \$24,000 with a grant of \$7,500. This home is in the Plum Prairie Historic District which allows for a 75% grant match up to \$7,500. This grant is for new hardi-plank siding on the home as part of a \$156,000 renovation.

Pending your approval, the property owners will be contacted and work can begin. All of the façade improvements must be started within 60 days and be completed within 12 months of approval.

After completion all façade improvements must be inspected by the Program Administrator and certified building inspectors to verify work has been completed according to the Façade Improvement Agreement. "After" photos and paid invoices itemizing all eligible costs will be submitted to the Mayor's Office for verification. After all work has been completed and verified, funds will be disbursed.

If you have any questions prior to the meeting on May 14th, please feel free to contact me at 317-776-6324 or at ahead@noblesville.in.us.

The current condition of 608 Chestnut St. in Noblesville is that of total disrepair. Despite once being a beloved family home, years of neglect and mistreatment have resulted in the home needing intense and costly renovation. While many others would have actively avoided this home due to its undesirable condition, we refuse to believe that this home is unable to become a cherished family home once again.

In order to return it to its former glory, we are in the process of completely renovating this home from the inside out. Every piece of the home is in the midst of repair from the innermost studs, wiring, plumbing, heating, ventilation, and air conditioning to the installation of new windows with trim, roof, and hardie-siding funded by the Residential Facade Improvement Grant. The home will be painted a beautiful Salty Dog Blue with pristine Alabaster White trim and an eye-catching Tide Water Green front door. When complete, the home will be a gorgeous three bedroom home perfect for a young family or those wishing to be close to the exciting new developments of downtown Noblesville and all that the Nickel Plate trail has to offer. Funds from the Residential Facade Improvement Grant will allow us to return this historic Noblesville home to its former glory for future homeowners and continue to beautify the Plum Prairie Historic District.

A handwritten signature in cursive script, appearing to read "Christopher Bann", with a long horizontal flourish extending to the right.

ATTEST:

EVELYN L. LEES, CLERK
CITY OF NOBLESVILLE, INDIANA

Current Condition of the Property:

My home is in good condition. My roof is 4 years old, my furnace and air conditioner are 5 years old. I have original hardwood floors and recently painted walls throughout. The yard fence is two years old and I have removed two large trees that were too close to the house. The backdoor is secure but allows heat and cold to escape/enter. The steps leading up to my front porch are irregular in height and difficult for me to use.

Project Plans:

Projects that I have planned next include a new metal backdoor with large window to let in more light and provide an airtight seal against heat and cold.

The next project planned is removal of existing concrete steps attached to the front porch and replacing the with new concrete steps that are of equal, lower rise and easier for me and visitors to use. This project is particularly important to me as I have trouble climbing steep steps.

ESTIMATE

Services	amount
<p>Brushed Project</p> <p>1. If necessary, lay plywood down for equipment mobilization so damage to your yard is kept at a minimum. Depending on the equipment being used this is not always the case.</p> <p>2. Demo earth and any other materials and haul away debris. Re-establish sub grade. Includes checking existing sub grade. Add additional compacted #53 stone as needed. If necessary, use a laser to grade. This covers removal of concrete/asphalt up to 5" in depth. Anything greater than this is subject to an additional fee.</p> <p>3. Form, pour and finish new concrete at a depth of 4" at 4500PSI(INDOT Class A)</p> <p>4. Fiber mesh reinforced.</p> <p>5. Brush finish.</p> <p>6. If needed, any public utilities will be marked for the customer.</p> <p>7. If needed, any permit required for the job will be obtained for the customer. Building permits and projects in Zionsville excluded.</p> <p>8. We typically ask for \$500 at the time of signing the contract unless discussed otherwise.</p> <p>9. We can backfill the perimeter of your new project with topsoil for a fee. Otherwise, backfilling will be left to the homeowner as there rarely is usable earth leftover. This is the industry standard. This service is not meant to replace dirt for an extreme grade but rather protect the sub-grade from washing out. If re-grading of the backfill is necessary please contact a landscaper as this is not part of the service and is rarely needed. Find pricing below.</p>	<p>\$3,650.00</p> <p><i>\$1,200 top 2 steps only</i></p>

10. Check out our other reputable company that we have transitioned to strictly commercial work, Gastoll Concrete, for additional 5 star reviews on Google and Angi. For example jobs visit our Silvers Concrete and Paving Facebook page or our website at silversconcreteandpaving.com.

11. Payment can be made via check, cash, ACH, financing or CC.

12. If applicable, customer is aware that a portion of fencing may need to be taken down for equipment access. Any sections taken down will be reinstalled.

13. If applicable, customer is aware that if the project contains any attached brick that the demolition will likely cause some of the brick to be damaged. We are not responsible for any replacement or repair of any damaged brick.

14. If applicable, customer is aware that irrigation lines in the near proximity of the project will most likely be damaged. We are not responsible for any replacement or repair of these damages as they are unavoidable. We recommend to have them moved prior to installation or to expect to have repairs after our work commences.

15. Cure and seal included.

16. Check the attached PDF in the email for drawings!!

17. 3 year warranty included. The warranty shall be limited solely to defects in workmanship. The warranty also covers cracking of 3/8" or greater in width.

18. A service team member will visit EVERY job shortly after completion to ensure that your property is clean and free of any debris. At this point add on services like topsoil or caulking will be completed. They will also place a sign in the customer's yard unless specifically asked not to by the homeowner. The homeowner does not need to be present at this point.

19. Try to ensure all 4 steps have a 5" rise or less.

AREAS TO COMPARE COMPANIES-

1. Are they protecting your lawn and property when possible?
2. Are they using pea gravel/sand as a sub-grade? This is a big red flag.
3. Are they insured and bonded?
4. Are they sealing your project?
5. Be wary of companies that require a large deposit as this should never be needed in this industry.
6. What is the duration of their warranty?

ADDITIONAL OPTIONS-

HIGHLY RECOMMENDED- HELIX MICRO-REBAR- \$.85 a sqft

--highly efficient tensile stress re-distribution. Significantly increases the bonding elements of your concrete. Unlike rebar or other forms of reinforcement, Helix provides proactive reinforcement which engages the concrete before large cracks form.

HIGHLY RECOMMENDED---E5 INTERNAL CURE- \$.75 a sqft.

--concrete is extremely porous. E5 fills these porous areas in the concrete mix to solidify and create a more cohesive mix. It also helps the concrete cure more efficiently as it doesn't allow the water to evaporate as quickly as E5 also densifies the mix.

INFINITY PACKAGE- HELIX AND E5 INTERNAL CURE- \$1.30 a sqft

Integral color- \$2.50 a sqft.

Expansion Joint Caulking- Only installed where expansion foam is located.

\$250 minimum- 50 linear feet and under.

\$4 for every extra linear foot above 50 linear feet.

Topsoil Backfill- Measured by adding the total of the perimeter of the project.

\$400 minimum- 60 linear feet and under.

\$4.50 for every extra linear foot above 60 linear feet.

ADDITIONAL SUB GRADE OPTIONS TO REINFORCE YOUR BASE-
ALL OPTIONS ARE INDOT APPROVED

GEO GRID BX4100- Guaranteed 4" of new compacted 53 stone.

-\$1.90 a sqft

GEO GRID TX130- Guaranteed 4" of new compacted 53 stone.

-\$2.25 a sqft

GEO GRID TX160- Guaranteed 6" of new compacted 53 stone.

-\$3.75 a sqft

FINANCING THROUGH HEARTH-

Check out what payment plans work best for you! It takes two minutes or less to apply and applying will NOT affect your credit score. Credit score will be checked if you move forward with a loan.

0% interest is available. If approved Hearth will send you a CC with 0% interest that will range between 12-18 months depending on what you qualify for.

TO: BOARD OF PUBLIC WORKS AND SAFETY
FROM: AARON HEAD, COMMUNITY ENGAGEMENT MANAGER
SUBJECT: 1393 CONNER STREET – RESIDENTIAL FAÇADE GRANT
DATE: MAY 03, 2024

Attached is the Residential Façade Improvement Grant Application submitted by Dennis and Sandra Smith for the property at 1393 Conner Street.

The total façade project cost is estimated at \$42,612 with a grant of \$5,000. This home is in the Conner Street Historic District which allows for a 50% grant match up to \$5,000. This grant is for the removal of failing brick porch structure and reestablishing a new Victorian era style porch, appropriate for the architecture of the historic home.

Pending your approval, the property owners will be contacted and work can begin. All of the façade improvements must be started within 60 days and be completed within 12 months of approval.

After completion all façade improvements must be inspected by the Program Administrator and certified building inspectors to verify work has been completed according to the Façade Improvement Agreement. "After" photos and paid invoices itemizing all eligible costs will be submitted to the Mayor's Office for verification. After all work has been completed and verified, funds will be disbursed.

If you have any questions prior to the meeting on May 14th, please feel free to contact me at 317-776-6324 or at ahead@noblesville.in.us.

Summarize or Attached Approved Scope of Work:

Remove & Replace Current Front Porch with Period appropriate construction.

Date Project Begins: Summer 2024 Date Project Ends: Fall 2024

Maximum Amount: **No receipts accepted**

Any unapproved changes to project plans as stated above in the Scope of Work will void the grant and result in nonpayment of funds. If changes to the Scope of Work are necessary, it is the responsibility of the Grant Recipient to immediately contact the Planning Department for additional project review before continuing with the project. Funding awards cannot be increased after notification of the initial award, regardless of approved change in Scope of Work. Work completed prior to grant approval is not eligible for funding.

Reimbursement will occur after project completion and upon submission of appropriate forms and documents as outlined in the guidelines. All required permits are the responsibility of the owner/applicant.

ATTEST:

EVELYN L. LEES, CLERK
CITY OF NOBLESVILLE, INDIANA

1393 Conner Street, Noblesville, Indiana.

The home was purchased by Dennis & Sandra Smith in November 2020.

It is our understanding that the home was built in 1880 and apparently the concrete, block & brick porch was constructed around 1935. The porch is slowly leaning away from the house as can be seen by the tilt in the columns in the enclosed pictures.

Indiana Foundation inspected the porch and found it was built with no footer, and as such cannot be leveled. Our plan is to demolish the existing porch while maintaining the current roof. The replacement porch will be of a Victorian style in keeping with the design of the house.

See information from Emergent Construction as to the type of materials and construction planned.

PRELIMINARY CONSTRUCTION PROPOSAL

CLIENT NAME:	Sandra and Dennis Smith
PROJECT NAME:	Decorative Porch Reconstruction
STREET ADDRESS:	1393 Conner Street
CITY, STATE ZIP:	Noblesville, Indiana 46060
REVISION:	0

Emergent Construction is pleased to offer you the following proposal for your project. This proposal has been prepared in accordance with the attached scope of work and allowances.

PROPOSAL PRICING:

FIXED COST:	\$27,526.00
*ALLOWANCES:	\$9,680.00
BUILDER FEE:	\$5,406.00
TOTAL PROJECT COST:	\$42,612.00

The contract price for this residential construction project has been calculated based on the current prices for the component building materials. However, the market for the building materials that are hereafter specified is considered to be volatile, and sudden price increases could occur. The Builder agrees to use his best efforts to obtain the lowest possible prices from available building material suppliers, but should there be an increase in the prices of these specified materials that are purchased after execution of contract for use in this residential construction project, the Owner agrees to pay that cost increase to the Builder. Any claim by the Builder for payment of a cost increase, as provided above, shall require written notice delivered by the Builder to the Owner stating the increased cost, the building material or materials in question, and the source of supply, supported by invoices or bills of sale.

*Only the actual cost for the allowances will be included in payment. Cost is based on purchase price, shipping, and applicable taxes.

Emergent Construction will perform this contract in a workmanlike manor using standard materials and practices from the industry. This proposal is void if not accepted within 30 days. Due to the volatility of material's pricing, this proposal is based on a start date within the next 30 days.

By accepting the proposal, client accepts the following payment schedule (or per bank draw schedule):

Payment due upon contract signing - 10% of total contract amount. All payments following will be periodic progress billing based upon percentage of work complete. Emergent may bill for partial completion of work. Final payment will be adjusted for the difference between the total allowance amount and the total cost of selections approved in Buildertrend.

Please make sure to indicate which bid you prefer for each description of work listed above.

Proof of payment (invoices and receipts) and at least one "after" picture are required for reimbursement after project completion.

1594 Logan Street Grant Application

Current condition of the building:

We purchased this home almost 8 years ago and have remodeled most of the interior. Two years ago we replaced all of the rotten clapboards and had the entire house repainted. We are slowly working to improve the exterior appearance including landscaping. The windows are one of the last remaining projects and will greatly add to the curb appeal of this heavily travelled corner lot at 16th and Logan Street. (You may have noticed a blue tarp on the east facade photos. The roof is being repaired next week after a semi truck hit the power lines and ripped them from the house on Monday.)

Project plans:

The deteriorating wooden windows will be replaced with new, "visually-period-appropriate" windows with a similar grid pattern as the current windows. We were careful to choose grid bars that have dimension and mimic the wood pane dividers in the current wood windows. The material used is vinyl, but looks similar to wood from a distance. To replace with wood windows would have cost over \$30,000 and required continual maintenance.

Hamilton County Treasurer
Susan Byer
