RE: RC 16-25, acquisition of property for 166th & Boden road improvements, area drainage improvements, and related improvements

DATE: February 23, 2025

This resolution provides authorization for acquisition of property to support the 166th & Boden roundabout project and Boden Road corridor improvements. This includes property on the west side of Boden that is owned by Whitecroft Farms Inc. and property on the east side of Boden that is owned by Irving Materials and IMI Real Estate LLC.

The city received a federal aid funding award for the 166th and Boden roundabout project. Construction of that project is expected to commence in 2028, following Duke Energy utility pole relocation.

Additionally, the city has been working on preliminary engineering for Boden Road corridor improvements between 166th and State Road 38. \$390,000 is included in the 2025 capital budget for this purpose.

A portion of the property will be dedicated at no cost to the City to support the 166th and Boden Road roundabout project, along with a drainage easement for the detention pond serving the easement. Those conditions were a part of the original Silo Ridge zoning approvals. The resolution also gives authority to acquire the property residue following the dedication

Thank you for your consideration of the resolution to support the infrastructure improvement goals outlined above.
