2025 Civil City Budget – Adopted

Overview/Highlights

as of October 29, 2024

Budget in Perspective

Net Assessed Value Growth: Certified NAV is 7.4% (\$377.2M) higher for 2025 than 2024. Average annual NAV growth was 11.7% from 2021 to 2024 (10.6% when 2025 is included). This grants the city a great opportunity to balance its debt leveraging and invest more into the community.

Property Tax (Levy) Growth: Certified Levy is 7.4% (\$4.1M) higher for 2025 than 2024. This is due to the constant \$1.10 tax rate the city adopts each year. Due to circuit breaker loss, Net Levy collections are slated to be 6.8% (\$3.4M) higher for 2025.

Local Income Tax (LIT) Growth: Noblesville’s LIT allocation (share of the total 1% county LIT) is estimated to be 13.7% in 2025. Year-over-year LIT growth is 16.6% (\$5.1M) from 2024 to 2025.

Reserve Balances: Cash reserves remain strong. These reserves help shield the City’s financial position from future downturns and allow for one-time investments in capital projects or other major operational needs.

Reserve Spend-Down: The 2025 Adopted Budget continues to spend down cash reserves by making one-time investments across Core Operational funds. Excluding these one-time expenditures, 2025 revenues are expected to exceed expenditures for the City’s Core Operational funds by \$10.2M. (*See Fund Balances Overview table below for more details*)

Total Budget Growth: The 2025 Adopted Budget for All Budgeted Funds represents an increase of \$17.1M, or 15.4%, compared to the Base Budget. Of this increase, \$10.8M is one-time spending and not planned to recur in future years. The remaining \$6.3M of the increase is ongoing spending, which is a 5.7% increase above the Base Budget. (*Budget Overview below for more details*)

Core Operational Budget Growth: Compared to the Base Budget, Adopted Budget appropriations for Core Operational funds only represent an 18.1% increase, or 6.4% when excluding one-time spending.

Reversions: Spending 100% of the City’s budget is nearly impossible. The 2025 Adopted Budget includes estimated reversions of \$3.8M for Core Operational funds only.

The following categories of funds comprise the City’s appropriated budget (i.e., “All Budgeted Funds”):

- **Core Operational** – includes all City funds that receive a portion of the City’s maximum property tax levy and/or local income tax distribution. This category comprises the largest share of the City’s budget appropriated to departments for operational purposes. Core Operational Funds include the following funds: General (101); Motor Vehicle Highway (106); Park (108); Downtown Development (112); Fire Cumulative Capital (114); COIT/Debt Sinking (118); and Rainy Day (163).
- **Other Operational** – includes funds that primarily receive revenue legally restricted for specific purposes. These funds include the following: Deferral (103); Law Enforcement Continuing Education (104); Local Road and Street (107); Park Programs (110); Parking Meter (111); Vehicle Excise/Wheel Tax (113); Cumulative Capital Development (120); Cumulative Capital Improvement (124); Court Records Perpetuation (142); and 2016 LOIT for Roads (257).
- **Pre-1977 Pension** – supports Police and Fire pension programs established prior to 1977. These funds include the 1925 Police Pension Fund and 1937 Fire Pension Fund.
- **Debt Levy** – pays for interest and principal costs on outstanding property tax-funded debt. The budget includes the following Debt Levy funds: Capital Improvement Short-Term Debt; Long-Term Debt 15% Reserve; and Long-Term Debt 50% Reserve.

Fund Balances Overview

The table below displays projected fund balance information for funds that draw from the City’s maximum property tax levy. Overall, the combined cash balance for Core Operational and Other Operational funds is projected to increase by \$107,419 in the 2025 Adopted Budget. When excluding one-time spending, 2025 revenues are expected to exceed expenditures for *ongoing* purposes by approximately \$10.9M for total Operational funds.

Year-end key cash reserves (General Fund + Rainy Day Fund) of \$35.1M will total 40.3% of 2025 budgeted revenues from those sources, and 32.9% of all budgeted Operational fund revenues. Refer to Appendix A for the City’s 2025 fund balance statement and Appendix B for an analysis of projected ongoing revenue and expenditures over a five-year period based on the City Fiscal Plan.

Budget Adjustments

Changes by Expense Category

The table below compares the 2025 Adopted Budget to the Base Budget by major expense category for all budgeted funds.

2025 Adopted Budget by Expense Category All Budgeted Funds					
Category		2025 Base	2025 Adopted	Change	% Diff from Base
100 Series	Personal Services	\$62,699,641	\$67,376,141	\$4,676,500	7.5%
200 Series	Supplies	\$3,547,998	\$3,715,059	\$167,061	4.7%
300 Series	Services & Other Charges	\$38,590,929	\$45,812,383	\$7,221,454	18.7%
400 Series	Capital Outlay	\$5,753,315	\$10,762,839	\$5,009,524	87.1%
Total		\$110,591,883	\$127,666,422	\$17,074,539	15.4%

The largest expense category is Personal Services (100 series), which increased by 7.5% from the 2025 base level. The largest share of this increase is from the adoption of across-the-board pay adjustments for City employees, including an 8% increase for Police and Fire sworn officers and a 5% increase for civilian employees.

The Services and Other Charges (300 series) and Capital Outlay (400 series) budgets show material percentage increases from the Base Budget to the Adopted Budget. However, these increases largely reflect one-time expenditures, which are not part of the annual Base Budget development process and only appear in the Adopted Budget. Refer to the One-Time Spending section below for more information on one-time expenditures.

(Intentionally Left Blank)

One-Time Spending

\$10,759,793

The 2025 Adopted Budget includes approximately \$10.8 million for one-time expenses. The largest portions of this amount support tactical equipment and supplies for Police and Fire (50%), road and street improvement projects (16%), and improvement and rehabilitation projects at City-owned parks (15%). The table below summarizes all one-time budgeted expenses by department and Appendix C provides a full list of all one-time projects.

One-Time Spending by Department 2025 Adopted Budget	
Department	One-Time Budget
000 Non-Departmental	\$314,382
001 Maintenance	\$210,000
004 Police	\$4,125,950
005 Fire	\$1,221,113

016 Economic Development/Programs & Projects	\$100,000
020 Parks/Maintenance & Administration	\$10,500
021 Parks/Golf	\$239,793
022 Parks/Recreation	\$20,000
023 Parks/Improvements & Rehabilitation	\$1,600,000
024 Engineering	\$50,800
025 Street/Maintenance & Administration	\$311,294
026 Street/Improvements & Rehabilitation	\$1,700,394
Total	\$10,759,793

Ongoing Spending Changes

\$6,314,746

The 2025 Adopted Budget includes various ongoing spending adjustments that result in a net increase of \$6.3 million for all budgeted funds. Increases in ongoing spending include \$3.4 million for cost of living and merit pay adjustments, \$820,348 to establish eight new permanent positions, \$21,491 for other personal services changes, and \$2.3 million for services and other charges. These increases are offset by net decreases of \$10,539 for supply costs and \$173,460 for capital outlay. The information that follows summarizes the ongoing spending changes in further detail.

Cost of Living and Merit Pay Adjustments (Personal Services):

\$3,404,185

The budget includes a 5% cost of living adjustment (COLA) for full-time civilian employees at an estimated cost of \$855,195 and an 8% COLA for sworn public safety officers at an estimated cost of \$2.4 million. Also included is \$195,360 for merit pay increases. Of the total cost, \$3.2 million impacts the General Fund, \$116,840 impacts the Park Fund, \$66,560 impacts the Park Programs Fund, and \$1,577 impacts Deferral.

New Permanent Positions (Personal Services): **\$820,348**

The budget includes \$820,348 to establish eight new permanent full-time positions (8.00 FTE) across multiple departments. The budget also includes \$116,094 for new temporary positions (2.20 FTE) in the Street Department for snow removal operations. The table below summarizes the new positions and their cost by department.

New Positions 2025 Adopted Budget						
Department	Position	Position Type	FTE Count	Salary / Wage per FTE	Full Cost per FTE	Total Budgeted Cost
004 Police	Patrol Officer	Permanent	2.00	\$61,735	\$107,902	\$215,804
005 Fire	Firefighter	Permanent	1.00	\$54,624	\$104,795	\$104,795
005 Fire	Administrative Assistant	Permanent	1.00	\$50,606	\$86,598	\$86,598
012 Legal	Legal Assistant	Permanent	1.00	\$56,399	\$93,878	\$93,878
024 Engineering	Capital Asset Manager	Permanent	1.00	\$89,800	\$135,843	\$135,843
025 Street/M&A	Operator	Permanent	2.00	\$57,034	\$91,715	\$183,430
Subtotal Permanent Positions			8.00			\$820,348
Street	Snow Plow Driver (seasonal	Temporary	2.20	\$22.00/hour	\$52,770	\$116,094
Total New Positions			10.20			\$936,442

Other Ongoing Personal Services Changes: **\$21,491**

Other changes to the personal services budget include increases to the overtime and longevity payment budgets for the Police Department (\$104,860), targeted pay adjustments for the Fire Department (\$10,034), position reclassifications in the Office of Finance and Accounting (\$13,242), and increased spending authority for pre-1977 public safety trust funds (\$88,715). These increases are offset by savings achieved through the elimination of the vacant Public Safety Director position (\$195,360).

Supplies: **(\$10,539)**

This expense category includes costs related to expenditures for supplies, including fuel, utilities, general inflationary pressures, and other miscellaneous goods necessary for City departments to operate. While most department budgets received an increase for ongoing supply-related costs, the overall net impact is a slight decrease due to cost changes and shifting in some departments. When including one-time supply-related costs, the total impact in this expense category is an increase of \$167,061.

Services and Other Charges: **\$2,252,721**

Service-related costs support services and licenses, including software licenses, vehicle lease payments, and ongoing contractual services with third party professional consulting, among others. The budget for this category results in a net increase of approximately \$2.3 million across all City departments. Debt service is budgeted in this expense category but did not change from the base to adopted budget.

Capital Outlay: **(\$173,460)**

The capital outlay expense category supports the acquisition of capital assets and improvements to infrastructure. The 2025 Adopted Budget results in a net decrease of \$173,460 in ongoing capital outlay funding compared to the Base Budget. The largest changes include increases in the Police and Fire budgets for equipment purchases, which are offset by decreases in other budgets primarily due to cost shifting. When including one-time adjustments, this category results in a net increase of \$5 million.

Other Notable Items

Summarized below are other noteworthy costs supported in the budget. Most of these costs are included in the 2025 Base Budget and do not necessarily contribute to the budget increases referenced elsewhere in this document.

Health Insurance – Employer Premiums: \$11,833,662

The Civil City budgeted share of employee health coverage represents 92% of the total cost; the remaining cost supports coverage for Utility Department employees, which are not funded through Civil City appropriations. The City covers 80% of the cost of healthcare premiums, which includes Civil City paid premiums for medical, dental, vision, and Medicare Supplement expenses for current employees and retirees.

Retirement Plans – Employer Contributions: \$7,048,028

The Civil City budgeted share of employee retirement represents 92% of the eligible employee population. Approximately 87.5% of City-paid retirement contributions represents required minimum employer-paid contribution amounts and the remaining 12.5% is voluntary additional contributions paid by the City.

Deferred Compensation Match and Severance Pay: \$1,702,667

The Civil City budgeted share of deferred compensation payments represents 92% of total costs. The City matches employee compensation deferrals up to \$3,000 based on a tiered declining percentage schedule. The budgeted amount for that cost is \$971,584 based on estimated employee participation that results in an average employer contribution of \$2,085 per employee. The City also provides severance pay on a variable basis determined by unused leave time when employees separate from employment. The budgeted amount for that cost is \$731,083 based on 2% of base wages.

Workers' Compensation Insurance: \$631,136

The Civil City budgeted share of worker's compensation insurance represents 92% of the total cost. This expense is funded via a payroll cost factor set at 1.68% of base wages.

Property and Casualty Self Insurance Contribution: \$1,395,611

The Civil City budgeted share of property and casualty self-insurance contributions represents 72% of the total cost. The 2025 Adopted Budget includes an increase of \$188,160 from the 2024 budget to bolster the Property and Casualty Self-Insurance Fund.

Utility Payments: \$1,084,755

Costs associated with city usage of basic utilities, including electricity, water, wastewater, solid waste, and natural gas total \$1.1 million in the Adopted Budget.

Vehicle and Equipment Fuel: \$871,438

Budgeted costs associated with the city's usage of gasoline and diesel fuel in City-owned vehicles and equipment are calculated by using the U.S. Energy Information Administration. Costs are based on estimates averaging \$3.12 per gallon for gasoline and \$3.67 per gallon for diesel.

Park Programs Subsidy: \$200,000

Included in the Parks Department operating budget in the Parks and Recreation Fund (Fund 108) to support the Park Programs Fund (Fund 110) should program expenditures exceed revenues. The amount budgeted in 2025 is consistent with the annual amount budgeted since 2022.

Parking Subsidy: \$292,476

Included as a General Fund (Fund 101) cost in the Police Department operational budget to support the Parking Meter Fund (Fund 111).

Contingency Appropriations: \$1,469,742

Contingency appropriations are made within the Non-Departmental budget across several funds for costs

unknown at the time of budget adoption. These appropriations provide flexibility as new opportunities and/or unexpected costs present themselves during the budget year. As summarized in the table below, the 2025 contingency appropriations total \$1.5 million, which includes \$509,742 for personal services and \$960,000 for non-personal services expenses.

The personal services contingency includes amounts for potential double-staffing costs in the Fire Department related to retiree succession planning, as well as merit pay adjustments. Although the Non-Departmental budget includes funding for across-the-board pay adjustments, those costs are not included in the table below since they are part of explicitly approved personal services spending in the 2025 Adopted Budget. The \$960,000 for non-personal services contingency excludes \$125,000 appropriated to the Non-Departmental budget from the Downtown Development Fund, which is planned spending that has yet to be allocated to department budgets.

Debt Payments from Debt Levy Sources: \$16,443,253

Debt payments made from dedicated debt levies that cannot legally be reallocated to other uses. Of the total budgeted amount:

- ✓ \$6,360,046 is attributable pre-existing debt.
- ✓ \$10,083,207 is attributable to the proposed one-year bond for capital projects and tax rate management.

Debt/Lease Payments from Operational Revenue Sources: \$5,073,724

Debt payments made from funds that can legally be reallocated to other uses. The total amount of debt/lease payments from operational revenues in the 2025 budget include:

- ✓ **Levinson Garage Bond Payment** – \$904,000
 - Taxable Economic Development Revenue Bonds of 2019 (paid from Fund 118 – LOIT Debt Sinking))
- ✓ **Public Safety Building Renovation Bond Payment** – \$164,608 (split between Fire, Police, and Court budgets)
 - 22% Share of Redevelopment District Bonds of 2014 (paid from Fund 120 – Cumulative Capital Development)
- ✓ **Vehicle Leases through Fleet Management Service** – \$509,609
 - Excludes police vehicles and fire department heavy equipment (paid from Funds 107 – Local Road & Street, 114 – Fire Cumulative Capital, and 120 – Cumulative Capital Development)
- ✓ **Citywide Capital Equipment Lease Payments** – \$3,495,507 (*refer to summaries on next page*)

Capital Project Funding

Summary by Funding Source

The 2025 Adopted Budget for capital projects includes appropriations totaling \$12.1 million for one-time and, in certain cases, ongoing capital expenditures. Of these appropriations, \$7.3 million is from the strategic spend down of reserves, including \$5.7 million from the General Fund and \$1.6 million from the Park Fund. An additional \$9.5 million is available from the proceeds of bond sales (One Year Bond), as authorized through separate Council action.

The table below summarizes the capital projects budget supported from both 2025 appropriations and One Year Bond proceeds. For more detail on individual projects, refer to Appendix D.

Fiscal Plan Surplus/Deficit Analysis

Examining the City’s *structural* surplus/deficit provides important insight into the City’s year-over-year fiscal position. The table below summarizes this for Core Operational funds by comparing annual revenue and spending, which includes only ongoing expenditures for fiscal years beyond 2025. The subsequent graph further illustrates available ongoing resources by charting the compounded average annual revenue growth through 2029, which is the last year of available data in the City’s 2025 Fiscal Plan.

Notes:

1. Consistent with the City's 2025 Fiscal Plan, \$10,000,000 of total one-time expenditures is funded through the strategic spend down of cash reserves, which includes transfers from the Rainy Day Fund of \$8,400,000 to the General Fund and \$1,600,000 to the Park Fund.
2. The 2025 Adopted Budget includes one-time General Fund expenditures totaling \$8,389,500, which is \$10,500 less than the strategic spend down transfer.
3. Of the total one-time expenditures funded from the Park Fund, \$1,600,000 is from the strategic spend down transfer and \$10,500 is from Park Fund cash reserves for maintenance work on the Park Department's backhoe. If determined necessary in 2025, the backhoe maintenance work can be funded from the strategic spend down transfer to the General Fund.
4. The total amount of one-time expenditures not funded through the strategic spend down of cash reserves is \$759,793, of which \$259,793 is from the Park Programs Fund and \$500,000 is from the 2016 LOIT for Roads Fund.

Major Capital Projects

The table below summarizes major capital projects supported in the 2025 Adopted Budget. The budgeted amounts may not represent the full project cost as some projects are funded from multiple sources, including funds that are not appropriated in the annual budget. Projected spending amounts are subject to change as more information becomes available on project costs.
