

IS YOUR YARD REALLY GREEN?

ENVIRONMENTALLY-FRIENDLY YARD HABITS AREN'T AS DIFFICULT AS YOU MIGHT THINK...

Going GREEN? Well, many common yard habits are potentially very destructive for our environment. But you can have a beautiful yard that is also environmentally-friendly.

Follow these simple tips:

- 2. Don't dump** yard waste down drains.
- 8. Plant native** plant species.
- 10. Install a rain barrel.**
- 11. Install a rain garden.**

Check out our Fact Sheet on the web to see the rest of the tips.

Separate Storm Sewer Systems – What goes into storm drains flows directly into the environment, untreated.
